

Statement Decontamination

For safety and regulatory reasons, this statement must be completed before servicing of the equipment. The statement is to be attached to the outside of the shipping packaging or placed on top of the shipping packaging. In the absence of a statement, you will be contacted by the company. You should complete a Declaration for each type of equipment (ex. pipettes, pressure gauge, and smaller tools etc.). If equipment is not cleaned - or if there is any doubt about it - you will be contacted and charges may apply transport, cleaning, etc. are billed along with the calibration
